Rision penetrates US market

Newsbites Finance | 4:40PM August 17, 2017

Rision has made significant progress with its goal of penetrating the USA market with its core product offering and has commenced the live use by clients in the USA market.

Of the ten cornerstone customers in the Florida region, four are now live with the rest to follow progressively.

These cornerstone businesses are middle tier businesses which have high staff churn and roster concerns and present excellent revenue opportunities for Rision.
