Virgin Care Services Limited (“Virgin Care”) Agrees to Exclusive Trial of Rision Rostering Solution

Highlights

- **RNL secures significant opportunity with leading health services group Virgin Care in the United Kingdom.**
- **60 day Trial following which potential to roll out to Virgin Care as a paying SaaS client.**
- **The RNL solution is proposed to assist Virgin Care with its staff roosting needs for nurses and health care employees.**
- **The Trial is exclusive to VCL and RNL can not supply its roosting solution to any other health organization in the United Kingdom.**

Rision Limited (ASX:RNL) (“Rision” or “Company”), Rision is pleased to announce that it has executed a software trial agreement (“Trial”) with VCL. The Trial is for a period of 60 days commencing 2 January 2017.

If Virgin Care and RNL determine the Trial is a success, it is proposed that a further agreement be entered into to commence on the completion of the Trial term. The agreement would enable RNL to roll out its product to VCL as a SaaS paying client.

RNL’s interim CEO Paul Steele commented “It is a great opportunity to expand its business with large international clients such as Virgin Care. This trial will help to demonstrate and refine the enterprise use of the Rision system, and validate its application in the health care system.”

Virgin Care is part of the Virgin Group and provides front line national health services (“NHS”) and social care services across the United Kingdom. Since 2006 VCL has treated more than 5 million people and operates over 300 NHS and local authority services across three broad services of primary, intermediate and community care services.

The Virgin Group is an international organization which employs over 71,000 employees worldwide in 35 countries and has a growing annual revenue of USD\$24bn. The core consumer sectors in which Virgin Group operates include travel & leisure, telecoms& media, music & entertainment, financial services and health & wellness.

The Company has commenced negotiations with a number of additional substantial international groups that are interested in deploying the Rision technology on a large scale. The Company anticipates being in a position to update the marketing the near future now that it has completed its restructuring and appointment of an interim CEO.
